

# VRX

NEW

Multipurpose Premium Grade

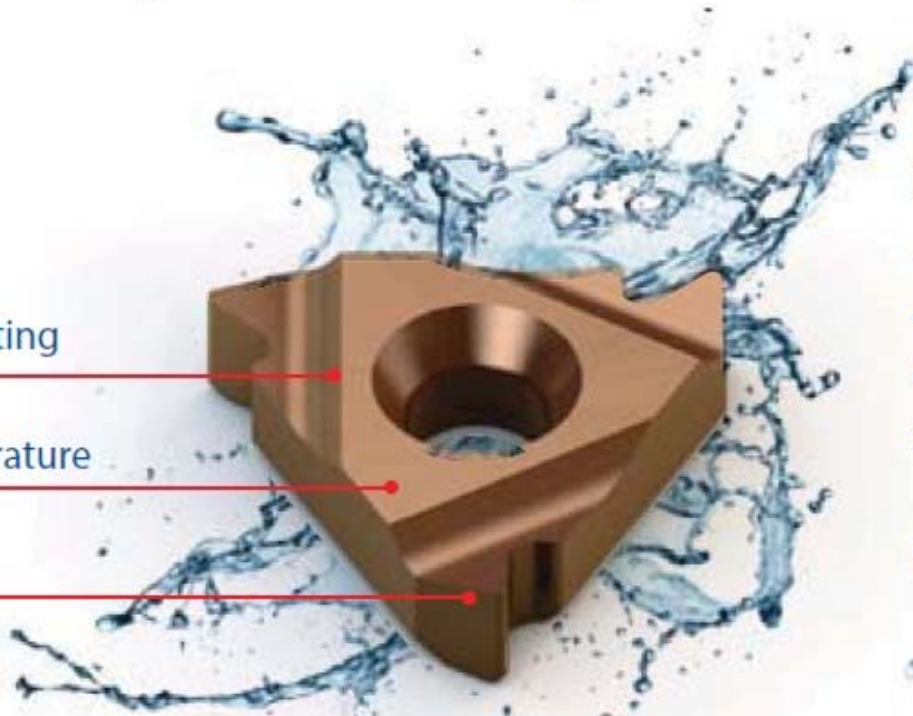

New Multipurpose Thread Turning Grade for Stronger Wear Resistance and Improved Productivity

# Redefining the Threading Benchmark

AlTiN Alloyed PVD Coating

High Oxidation Temperature

Submicron Substrate

## Features and Benefits

- AlTiN Alloyed PVD Coating
- Higher Oxidation Temperature
- Improved Adhesion to Substrate
- Improved Resistance to Plastic Deformation
- Multipurpose Grade

# VARDEX

Advanced Threading Solutions
